# Products for those who act efficiently and environmentally conscious
# Welcome to Professional Hygiene

## Dear customer,

every year we work on our products to give you top performance. In the new issue of our assortment brochure, you can convince yourself of the high quality and diversity of our offer, the attractive pricing as well as the extensive services offered by our company. From high-quality individual products, we have once again put together a tailor-made package of sanitary solutions.

The WEPA prestige ADT is a new addition to our range of products (see p. 8). Thanks to the latest Air-Dry Technology (ADT) the paper towel is extremely absorbent and highly efficient in use: In most cases, one sheet should now be sufficient for drying hands. It can't get any more sustainable! New in our programme is the WEPA 50 L waste container – stylish in design, practical in use (see p. 6).

More and more retailers rely on our products. Did you know that meanwhile every fourth hygiene tissue paper roll in the "away from home" sector comes from the company WEPA? Founded in 1948 as a "Westphalian Paper Mill", our owner-managed family business is today the third largest producer of sanitary paper products in Europe. We owe it all to you, our customers and our dedicated staff, and this encourages us to continue delivering top performance.

This also applies to sustainability – one of our key corporate objectives. We constantly develop our integrated environmental and energy management system and adapt it to meet the latest requirements. For detailed information on this topic, please see page 38.

Convince yourself of our offer!
Feel free to contact us should you have any queries.

Yours,

Dr. Benno Hundgeburt
Managing Director

Martin Rohde
Managing Director

### OUR OFFER.

For 67 years we have been a reliable partner in the field of hygiene tissue paper. Therefore, we know what is needed in "real life". This is what we offer you: A comprehensive range of sanitary products for the "away from home" sector. Thanks to Europe-wide production and distribution facilities, the strong brands WEPA prestige, WEPA comfort and WEPA smart stand for fast and reliable "on-site service".

### BY PROFESSIONALS FOR PROFESSIONALS.

As a subsidiary of the WEPA Group, we know what people, i.e. your employees and your customers, need and expect. With our knowledge and experience we support hygiene officers, hotel and kitchen chefs, restaurant and kindergarten managers, nurses and doctors in their work.

### WE TAKE RESPONSIBILITY.

Every day millions of people put their health in our hands. A great deal of responsibility, which we fulfil conscientiously and actively. We work closely with large and small companies and institutions throughout Europe – from airlines to large canteens and kindergartens.

### GROWTH FOR TOMORROW.

Welcome to Professional hygiene – this shouldn't only apply today. That is why sustainability is a key component of our business strategy. WEPA Professional is proud of its certification according to ISO 9001, 14001 and 500001, and its commitment to the Blue Angel, the EU Ecolabel and the FSC®.

# The secure feeling of good quality

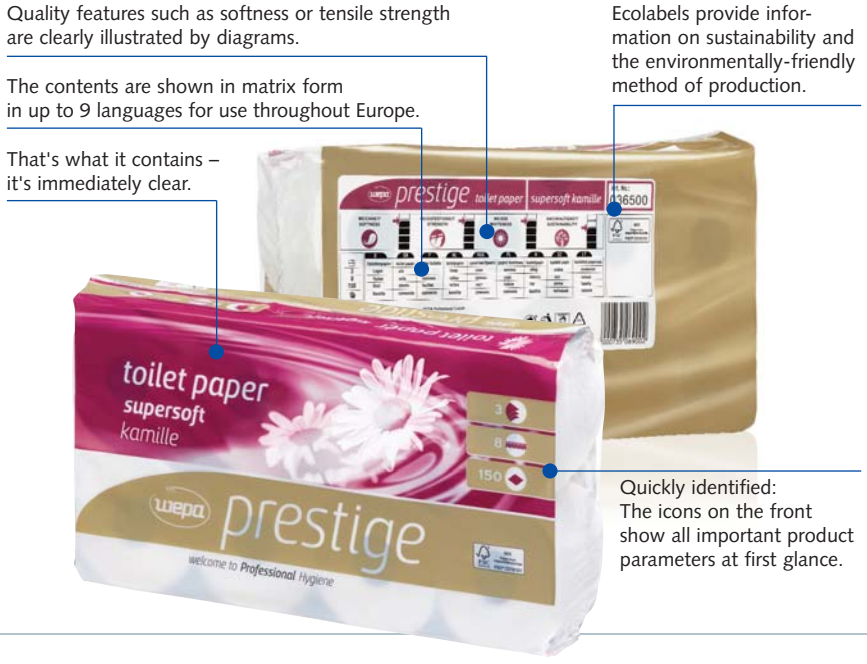
## Thought for you, made for you:
### The product range of WEPA Professional

Is a product brand an important subject? We think it is.
With our clearly structured brand programme you increase the recognition value of your products and provide an orientation on the three product groups with their varied quality characteristics.
For the customer, the product group is clearly visible; for example, each toilet paper roll has matching kitchen rolls with the same quality and environmental compatibility.

To build a brand name, WEPA Professional supports you actively with accompanying promotional material, such as sales and promotional flyers – demand and brand awareness are both increased, thus turning a simple buyer into a returning customer.

**You know what's in it – at a glance!**

All packaging is designed in such way that both the content and all the necessary product parameters are visible at first glance. The customer knows what to expect from the product – with up to 9 languages, graphically clear and identifiable from all sides. The colour differentiation of the products also makes it easy to identify the individual product lines.



**Our dispensers are great.**
**Both in design and in delivery.**

Our very sturdy cardboard boxes are suitable for further safe dispatch by parcel post.

Dimensions and contents are visible at a glance, so your customers can quickly and easily identify what is being delivered.

Easy to understand, with detailed and illustrated operating instructions and the necessary mounting kit.

This leads to greater customer satisfaction and makes it easy to handle.

# The WEPA Professional brands

**Reduce consumption, not quality!**

Our paper towels guarantee very good cleaning and drying performance as well as the best possible hygiene and snag-free dispensing in our dispenser systems.

paper towels format tissue WEPA prestige/prestige Air-Dry-Technology (ADT), WEPA comfort and WEPA smart

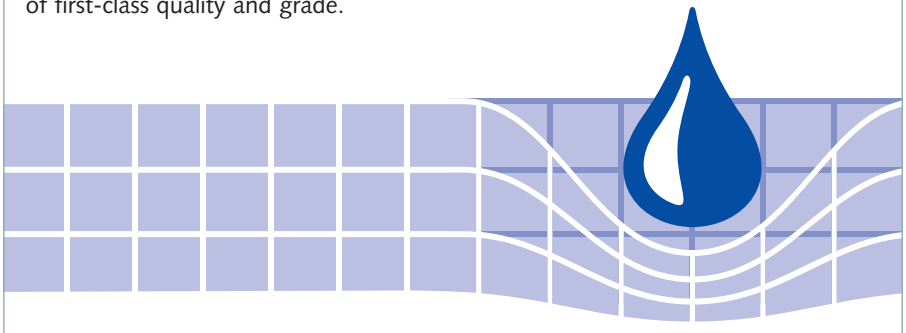
air-dry tech

## New addition:
## WEPA prestige ADT – in most cases, one sheet should now be sufficient for drying hands!

### Thanks to the Air-Dry Technology (ADT), WEPA has created its most absorbent paper towel so far.

In the manufacturing process of the WEPA prestige ADT paper towel, the paper web is "blow-dried" from below when still wet. This process produces vertically aligned paper fibres – the result is a base paper of first-class quality and grade.



The resulting "air chambers" increase the volume of the paper and provide maximum absorbency, tensile strength and softness.

**WEPA prestige ADT stands for:**

**42 %***
more water absorption

**7 x***
faster absorbency

**8 %***
more tensile strength

* Compared to a standard cellulose tissue paper towel

# ADT tissue format and paper towel rolls

## PAPER TOWELS, FORMAT TISSUE

### WEPA prestige Air Dry Technology
### Z, W and V-fold

WEPA Professional's Premium-Plus hand towels. Our unique Air Dry Technology guarantees the highest water absorption. Just one sheet is enough to dry your hands! It also ensures the softest possible paper that is as strong as possible.

# Less is more!

## Reduce consumption, not quality!

With our self-presenting paper towels (Z and W fold), you will be sure to save money, time and material, for example compared to C fold products

Z and W folded towels are your best choice both economically and ecologically with respect to logistics, transport, storage and consumption

**Consumption example:**

1 box of folded towels, completely unfolded (Z and W fold)

3 boxes of folded towels, layer fold (C fold)

**Less** expensive for transport, storage and logistics

**Less** personnel required due to long refill intervals

**Less** consumption due to completely unfolding towels

**Less** consumption, thus less packaging material, less waste and less contamination of the environment

**More** hygiene through clean single towel dispensing

# Format tissue Z and W fold

## PAPER TOWELS, FORMAT TISSUE
### WEPA comfort Z and W fold

## Give viruses no chance!

### Under this motto, we work actively for more hand hygiene.

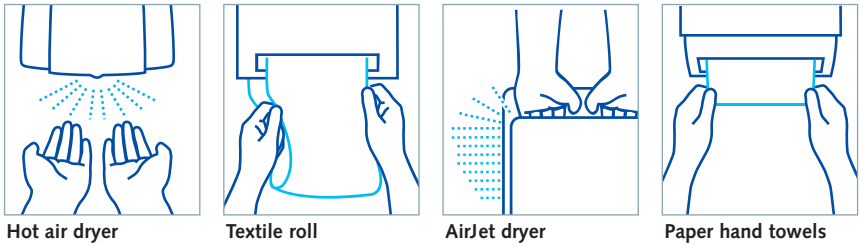
Our hands are our most important tool. They come into contact with numerous people and objects every day, and unfortunately as a result, also with viruses and bacteria. Washing and drying hands properly is still the best way to protect yourself from infections and illnesses.

For the best protection, however, your hands also need to be dried carefully, since it is very difficult for germs to multiply and survive on clean and dry hands.

**A small contribution! With a great effect!**
Besides customer and retailer training, we also offer intensive support to kindergartens, schools and to hygiene officers with respect to hand hygiene. For example, through our annual participation in the international Global Handwash Day where we hand out information flyers, useful giveaways and provide advice on our website.
Our current "hands on!" campaign raises awareness on an obvious approach to daily hygiene in kindergartens and day care centres. We also motivate children for more hand hygiene with 9 funny motif lines.

## Paper hand towels

### More hygienic, faster and more popular



| | Hot air dryer | Textile roll | AirJet dryer | Paper hand towels |
|---|---|---|---|---|
| Hygiene | ●●● | ●●● | ●●● | ●●● |
| Drying time | ●●● | ●●● | ●●● | ●●● |
| Popularity | ◐●● | ●●● | ●●● | ●●● |

**From wet to dry and clean in a few seconds**
Hands are one of the main transmitters of infectious pathogens. Only paper hand towels guarantee a strikingly reduced bacterial count to exclude cross-contamination.

**It does not make sense to save on quality – because cheap is not equal to inexpensive!**

Cheap prices are only possible due smaller sheet sizes, low grammage or poor cellulose.

The result: Users consume more to attain the same cleaning and drying performance! Refill and maintenance intervals, even storage and ordering costs increase.

**With high quality tissues, one often only needs one sheet for drying hands.**

Source: TÜV Rheinland, Sept 2005 and Aug 2011, study by the University of Westminster towards the end of 2008 as well as Intermetra 2008

# System paper towel rolls

## PAPER TOWEL ROLLS TISSUE

**331410**
Double roll toilet paper dispenser for compact rolls

## For all those who find jumbo is too large,
## WEPA has created compact rolls

**Compact, space-saving and advantageous**
**The economical solution for medium to highly frequented lavatories**

Having the identical diameter of a small roll, WEPA compact toilet paper rolls with a tighter winding of the toilet paper and a significantly smaller roll core (ø 1.6 cm) offer up to three times the amount of sheets per roll.

**Your plus:** Compact rolls last longer and are therefore ideal for a smaller workforce, since they need to be replaced less frequently.

**As yielding as**

# 2,5

rolls of conventional toilet paper

## TOILET PAPER LARGE ROLLS
### WEPA comfort

100% recycling products, bright white and highly soft for high comfort and best environmental compatibility.

**Accredited with the EU-Ecolabel**

**Simply save space:**
**The clever product from WEPA Professional – for all who think efficiently and who are environmentally aware.**

With almost 60 % less volume and 100 % more sheets on a roll, the WEPAS's XXL idea is a benefit for merchants, consumers and the environment.

**WEPA prestige XXL kitchen rolls have 102 sheets. This means:**

**75 %***
less storage and logistics costs

**26 %***
less packaging film and waste

**50 %***
longer replacement intervals

* approximate values when compared to a standard kitchen roll

## True partnership in every respect
### The A to Z of success

**Personal care**
We're there for you! Whether via telephone, a face to face on-site visit or 24 hr, 7 days a week via Internet.

**Training**
We are always on the move, always listening to the needs of the market. We regularly offer factory tours, training sessions or seminars on topics such as hygiene, paper production or distribution, etc. In the news section of our website, you will find several interesting studies, videos and press articles for optimal marketing of our products.

**Sales support**
If the retailers are successful, so are we.
Therefore, we provide our partners with a wide range of sales support material, ready for retrieval at all times: personalised ads, banners, pamphlets, flags, roll-ups, dispenser walls and even customisable sales flyers.

**Mobilise attention and demand**
We advertise and issue press releases on a regular basis. We forward inquiries consistently to our trading partners. Many retailers benefit from our expertise and get support, for example through joint customer visits, training sessions, in-house fairs and tenders.

**WEPA Professional is a 100% subsidiary company of the WEPA Group.**
**Active throughout Europe, yet always available for you on site.**

More than
3000
employees

12
locations in Europe

**This guarantees you:**
Market-established products and prices with first class, reliable service thanks to modern quality management, in-house labs and innovation teams.

# Our responsibility for man and the environment
## Sustainability since 1948

As a family-run medium-sized company, we think long-term and follow values that have shaped our business activities from the outset. In addition to respect and commitment, sustainability is one of the three major pillars of our value orientation and is a corporate goal with the same level of importance as economic success, high quality and safety.

Since its foundation in 1948, WEPA has traditionally followed the concept of sustainability and in this area it is regarded as one of the pioneers of the industry. Right from our early days, we have implemented the use of recycled fibres in the production of our hygiene paper products. Today they meet the highest ecological standards and are certified to the strictest guidelines.

**Sustainable industry pioneer:** As the first company in the hygiene paper market, WEPA offers toilet paper made of 100% recycled paper with tissue properties.

Our corporate policy is based on the belief that targeted economic activity in accordance with environmental sustainability can stand together with competitiveness in the market. Environmental aspects are integrated into all decision-making and operational processes of our management system – with the goal of continuous improvement. The focus is always on increasing energy efficiency, protect the environment and reduce costs.

Based on our value-oriented corporate culture, we encourage among our employees a sense of responsibility for the environment. We achieve this through open communication, availability of all relevant information and training sessions. Our contractual partners must also follow our environmental protection requirements. In addition to this, we also maintain an open dialogue with our customers, authorities and the public in all environmental issues.

**WEPA certifications:**

**FSC®** and **PEFC**: All WEPA locations are both FSC® and PEFC certified. Both certifications are available for cellulose and recycled products.

**Blue angel:** For selected WEPA products made of recycled fibres.

**EU ecolabel** and **Nordic Svane**: WEPA holds these certificates for selected cellulose and recycled grades.

**ISO 9001**, **ISO 14001** and **ISO 50001** for all WEPA production sites in Europe.

**Our environmental targets:**

**2 %***
reduction of the specific energy consumption per year

**2,5 %***
reduction of $CO_2$ from economic activity per year

**5 %***
reduction of the specific wastewater volume

**To reduce landfill waste and increase the recycling rate for the entire group as a long-term goal by 2020**

* percentages refer to the group-wide average

Arthur Dressler,
WEPA Giershagen, Recycling Material Preparation

**Important cornerstones of our energy and environmental policies:**

- Continuous, sustainable reduction of energy consumption and the use of natural resources
- Increase of energy efficiency through continuous improvement processes
- Implementation and ongoing development of the energy management system in accordance with ISO 50001 and the environmental management system in accordance with DIN EN ISO 14001
- Priority of the energy efficiency factor in the procurement of investment and consumer goods
- Development and regular review of energy-saving and environmental programmes
- Annual preparation of life cycle assessments
- Use and economic handling of environmentally friendly materials

# Your reliable partner for cleaning and hygiene
# WEPA Professional

***WEPA** welcome to **Professional** Hygiene*

## About WEPA Professional

WEPA Professional is a 100% subsidiary company of the WEPA Group. With over 3,000 employees and 11 locations across Europe, we play in the Premier League of the European hygiene tissue manufacturers. This ensures you to benefit from all advantages of a nearly Europe-wide on-site production – market oriented quality, attractive prices and first class reliable service.

## Environment & Responsibility

As a responsible manufacturer of hygiene tissue paper, the WEPA Group has for many years been paying special attention to sustainable resources ans a paper production that in conformity with the enviroment. A large part of our hygiene paper products consists of 100% recycled materials and is FSC® or PEFC-certified. The WEPA Group was also certified in acc. with ISO 9001 and ISO 14001 and engages itself in the "EU-Ecolabel" as well as "Blue Angel"projects.

## Quality & Logistics:

WEPA unites top-class paper production know-how with unique technical equipment. Constant product development, a consequent market orientation and Europe-wide sales are our guarantee for continuous innovation and advancement. With our highly modern warehouses and sophisticated logistics, we ensure delivery performance on the highest level.

## Service & Availability:

Our experts will gladly assist you with your purchasing decision. Whether at short notice on the telephone, by fax or e-mail or in a personal talk on site. Our website www.wepa-professional.de always provides you with the latest news, the most current overview of our entire range and interesting facts about paper production, use and hygiene. EDI interfaces or e-data for your ERP system are also easily realized.
